

RegulusTOP PUMP STATIONS FOR HEATING CIRCUITS

CS2 OTS W 5/4F Pump Station

Pump station for bigger boiler rooms with Yonos MAXO circulation pump and ball valves. A ball valve with filter&magnet is fitted on the return pipe. It is suitable for connection to HV 80 Manifolds.

TYPICAL APPLICATION:

For unmixed heating circuits with/without thermostatic valves.

Technical Data

MAX. PRESSURE	10 bar
MAX. TEMPERATURE	110 °C
CONNECTIONS	5/4" F
PIPE DISTANCE	125 mm
DIMENSIONS	220 x 415 x 130 mm

Components

FLOW:

- 5/4" connection fitting with union nut
- 5/4" ball valve
- Wilo Yonos MAXO 25/0,5-10 high-efficiency circulation pump
- 5/4" ball valve

RETURN:

- 5/4" connection fitting with union nut
- 5/4" Magnet Filterball

Typy

CS2 OTS MFB W 5/4F
